

Agora
Lievore Altherr Molina

Agora is a fully upholstered lounge chair that is available in solid wood and metal bases. This armchair is distinguished for its serene gesture that embraces us and invites us to relax, its comfortable ergonomics and its elegant presence. Thus, making it ideal for waiting, reading or leisure areas. Its name is an invitation to share space, and its form allows for interaction with others whilst enabling us to stay focused on what concerns us.

Agora has diverse options for bases; a four star central swivel base made in aluminum with a polished finish, a solid wood central swivel base, or a base with four wooden legs. These versions make it suitable for diverse situations in public and private spaces.

A **tilting seat system, the new low-back armchair version and two new options of upholstered footrests**, with central base in aluminum or in a fully upholstered version and available in two sizes, complete the Agora collection. These **novelty incorporations** provide it with dynamism and lightness and further expand its possibilities in different spaces, allowing to cover all the relevant registers of a high performance lounge chair.

Raglan
Piergiorgio Cazzaniga

Raglan is a modular sofa designed for group environments, making it appropriate for corporate or **public** and **private** spaces. Of great **comfort** and character, its outline and shape is defined by the upholstered perimeter seam. With a meticulous **upholstery work** and elaborated stitching elements, it allows for a vast range of solutions with fabrics, colors and finishes, that are adaptable to any special requirement or space.

The collection is comprised of **lounge chairs, two and three-seat sofas** and one, two and three seat modular corners that are combinable with each other. It has a common base structure made from injected aluminum that conveys a solid and robust but delicate and soft design. It is available in white, black and polished finish.

Unos chair Jasper Morrison

Collection of **chairs** and **armchairs** made of **solid beech wood**, seat and backrest are made of plywood. Two version available: stackable and non-stackable.

This collection **emphasizes its innovative carpentry joinery and technology**, which combine the elaborate and precise woodworking with intelligent construction technique, reminiscent of the components used in aircraft. The result is a **rugged, lightweight and attractive chair**, with balanced proportions and a serene and contemporary gesture. The offer is composed by **seat**

and backrest in plywood, upholstered, and only upholstered seat.

The combination of wood colors available with the variety of fabrics from our catalogue makes it suitable for any space or use in both public and residential environments

Pillow
Lievore Altherr Molina

Pillow is a collection of **chairs, armchairs** and **lounge chairs** with **solid beech wood** structure and upholstered seat and backrest. From its modern design to the lightness of its elegant line, it is intended as an example of sheer comfort.

Pillow is featured in two sizes for chairs and armchairs and in one version for **lounge chair**. Its discreet proportions and **balanced design** make it a collection with a wide range of possibilities and versatility; both in public or private environments.

It has a **notable modular system** that represents a real structural challenge of undeniable beauty; the solid beech wood triangular legs fit with exact precision in the specific beveled seat structure, that is equally made in solid wood.

The upholstery is a fundamental element in the **Pillow** collection. Likewise, the vast selection of fabrics and colors, along with the variety of finishes available for the wooden structure, open a wide range of possibilities that make it adaptable and suitable for any project or space.
